

English Informed Consent

Support Staff do want you to be informed about how privacy works in remote counseling.

Just as it was when we were in school and meeting in person ... we don't share with others what we discuss unless you want us to do so. However, there are 3 exceptions we are required to report:

1. Threats to harm yourself
2. Threats to harm to others
3. Knowledge of someone else being harmed

Depending on the situation, we legally must report these incidents to administrators, other support staff, your parent/guardian and/or other professionals in order to provide the help that is necessary.

****FlipGrid Notice:** We will screen all videos posted in FlipGrid activities. Please say at the end of your videos if you DO or DO NOT want your video shared, or message us privately. WE WILL NOT POST your video in the public FlipGrid, if you SAY you want ONLY US to see it. We value your privacy.

*****Other Communications Notice:** Remind Texts, emails, Classroom comments/assignments, FlipGrids, and chats in Hangouts will be kept private on our devices behind password protection, but they still could potentially be accessed by other adults in the school district.
